

COVID-19 Prevention Policy

To comply with our COVID-19 Response and Prevention policies, the following steps must be taken. These COVID-19 job site safety practices are required so long as the “Stay Home, Stay Healthy” Gubernatorial Proclamation 20-25 is in effect or if adopted as rules by a federal, state, or local regulatory agency. All issues regarding worker safety and health are subject to enforcement action under L&I’s Division of Occupational Safety and Health (DOSH).

When on Site:

- Staff must have the appropriate PPE (Personal Protection Equipment) such as a mask and/or gloves
- Staff will provide the client with PPE should they not have any on hand
- No more than three (3) persons, including staff, are permitted to be on site or in a client’s home at once
- If a resident is present, then staff is limited to 30 minutes on site or in the client’s home

For any further information, please contact our office and links to the government website will be provided.
